

ICS 83-4012  
5 May 1983

MEMORANDUM FOR: Director of Central Intelligence

FROM:

[redacted]  
Director, Intelligence Community Staff

STAT

SUBJECT: Release of Threat and Other Pertinent  
Materials to [redacted] for IC  
Computer Security Project

STAT

1. Task I of [redacted] effort under the joint Intelligence Community/DOD Computer Security Project is to perform a vulnerability analysis and threat assessment of the electronic information systems storing or processing intelligence materials. In the past, various threat assessments have been developed for different components of these electronic systems (e.g., computers or communications). Some of these existing threat documents carry [redacted] marking. [redacted] will require access to these existing assessments in order to help develop a net assessment of vulnerabilities and threats to our electronic information systems. STAT

2. It is requested that these threat assessments and other pertinent documents be released to [redacted] of the [redacted] as necessary to perform the tasks identified for this project. If you approve this request, [redacted] the Contracting Officer's Technical Representative, will coordinate the release of these documents to [redacted]. STAT
